Brekford Corp. Announces Partnership with RedSpeed USA to Provide Photo Speed Enforcement Services in Maryland

HANOVER, MD (November 16, 2009) – Brekford Corp. (OTCBB:BFDI), a leading homeland technology service provider of fully integrated vehicle installation and rugged technology solutions geared towards mission critical operations, is please to announce the business relationship with RedSpeed USA designed to deliver industry leading photo speed enforcement services to Maryland municipalities and Counties.

With recent legislative changes in the public safety landscape and growing community concerns about safety in Maryland school zones, the partnership will bring proven technology and enforcement solutions directly to Maryland law enforcement agencies.

The State of Maryland's significant expansion and implementation of speed control systems throughout the state is estimated to generate \$65.3 million in new photo ticket revenues by 2014 and an estimated \$9.8 million opportunity for private sector companies servicing the public safety landscape.

The City of Baltimore recently launched an automated speed monitoring program in school zones and the partnership we announced today will focus on supporting Maryland municipalities and counties in their efforts to decrease school zone speeds.

CB Brechin, Chief Executive Officer of Brekford, stated, "We applaud the efforts the City of Baltimore has undertaken to make Maryland streets safer for our children. There is proven direct public safety benefits with the installation and monitoring of mobile and fixed photo speed enforcement system." Mr. Brechin went on to say, "The partnership between Brekford and RedSpeed joins together two companies with proven and complete vehicle and photo law enforcement solutions and is recognition of our commitment to the Maryland school zone safety."

The combination of Brekford's complete law enforcement vehicle solutions and RedSpeed Maryland's proven expertise in turnkey processing services will provide Maryland municipal and county law enforcement agencies with a "one-stop-shop" to obtain cutting edge technology solutions and services specifically designed to improve traffic safety within our school zones and greater Maryland communities.
